Same fun as the rest of this saga. I'm always excited to buy this whenever it comes out no matter what. I felt like some levels were hard :P, and that's awesome!. Another fantastic edition to the series. I always look forward to a new one being released. Some levels are tricky, as per previous episodes, but not unbeatable [gold stars]. Good graphics, very interactive in regards to challenges, good diversity in the levels. Always very happy with this series!. Enjoyable next installment in the series! I think there might even be some new music? I liked the optional level switches that were added this time around. I love this series and find it a relaxing way to spend some time.
